D. COMMITTEE REPORTS:

Item 1 Chair Bibbs called upon Trustee Michael Dora for an Academics & Student Experience Committee report. Trustee Dora reported there is no action items for board approval.

Dr. Rebecca Rahschulte provided updates on K-14 Initiatives at the College, including our Crossing the Finish Line and Free Summer programs, as well as the college's receipt of a \$1.2M Career Exploration, Engagement, and Experience grant from the Indiana Department of Education. Rahschulte also discussed dual credit efforts and the impact on matriculation rates, along with upcoming research on post-secondary completions by students while in high school and the long-term outcomes for these students.

Provost McCurdy provided an overview of Summer enrollment, reporting that we are closing out summer ahead in all student types with the exception of continuing students. We ended the summer semester with an increase of 3,598 in headcount (+12.5%) and 958 in FTE (+10.5%) above the prior year. Retention of students from Spring through Summer 2022 was at its highest rate in the past six years.

Dr. McCurdy gave an update about Fall enrollment. Since registration opened in March, the priority for fall has been early registration because our student data show that students who register more than 30 days prior to start of term have a significantly greater likelihood being successful in their coursework and being retained through completion. Early enrollment and registration for fall were well ahead of historical rates this summer. Currently, enrollment for fall is up in several student categories, including new-first-time-traditional students, new-first-time-adult students, dual enrolled students, and readmitted students. Continuing student enrollment is currently below prior year and this population will be a focus for the coming year. Significant registration activity for the start of fall will be occurring over the next three weeks.

Dr. McCurdy also provided an update about the Ivy Achieves program. This initiative to close equity gaps in student success is supported by a grant from the Lilly Endowment. Over the past six months, faculty, staff, and students have taken lessons learned from the first year of the program to redevelop and launch a new program that will focus on high-impact habits of students associated with retention and success. Progress on productive habits will be tracked in “real time” and grant funds will be used to provide supports connected with these habits. This program launched at 10 campuses in July.

Carlin introduced a new 100-day engagement campaign for prospective students designed to help guide them through the enrollment process that will launch next week and include phone calls, emails, texts, digital

advertising, and direct mail. Finally, Carlin debut the new video commercials deployed this week. There are two ads, one targeting adult learners and the second targeting traditional students and their influencers.
